

REMARKS

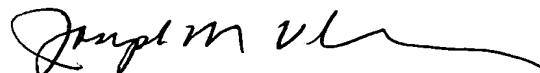

Claims 1-64 are currently pending in the application. Claims 1-64 were subject to an election of species requirement. Claims 28-60 have been canceled without prejudice.

The Examiner identified four species disclosed in the present application, namely, a display device, an LCD device, an LED display device, and a plasma display device. The Examiner required election of a single one of the disclosed species and identification of the claims reading on that species. The Examiner correctly identified claim 1 as being generic.

The Applicants hereby elect without traverse to pursue all claims reading on the display device having a substratum and all-metal electronics. Specifically, such claims include claims 1-27 and 61-64. Claims 28-60 have therefore been canceled without prejudice. The Applicants hereby reserve the right to bring these canceled claims back into the present application should a generic claims be allowed. The Applicants also reserve the right to pursue these canceled claims and any other claims supported by the present specification in related applications.

If the Examiner believes a telephone conference would expedite prosecution of this application, please telephone the undersigned at (510) 663-1100.

Respectfully submitted,
BEYER WEAVER & THOMAS, LLP
